Profile

I'm a self-made software developer with the ability to ace tasks on front-end as well as back-end. Able to effectively self-manage during independent projects, as well as collaborate as part of a productive team.

I also have the potential to learn any new technology that is set in front of me.

Projects

Dec 2022 - Jan 2023

Dogstagram

It's an app connected to a dogs information API, also uses Sequelize models to allow the user to create dogs in the same manner as the existent ones. It also has the functionality of filtering the dog breeds in terms of different characteristics the dogs may have.

Used PostgreSQL, Express, ReactJS, Redux, NodeJS and pure CSS.

Jan 2023 - Feb 2023

Happy Hour Helper

Web app that allows the user to surf through a variety of alcoholic beverages using filters including their category, brand, subcategory, price and so on. It's also equipped with a cart and payment process, as well as an admin dashboard that allows to manipulate the website without having any coding experience.

Used PostgreSQL, Express, ReactJS, Redux, NodeJS, Material UI, Styled Components, between others.

Aug 2022 - Sep 2022

Meals App

App connected to an API that displays meals with their information, step by step and hyperlink to access a recipe video.

Made this with ReactJS only, using context API to transport all of the information throughout the website.

Education

Sep 2022 - Feb 2023

Full Stack Developer, [SoyHenry](#)

Programming Bootcamp with intensive studying pace.

Front-end

Javascript
ReactJS
Redux
HTML
CSS

Back-end

NodeJS
Sequelize
PostgreSQL
ExpressJS
